THE WELD DID NOT HOLD.

A time ago The World congratulated all oncerned on the announced fusing of the Prosvterlans and Southern Methodists for the purose of conducting a great christian educational Institution under the title of Tulsa university.

We now find that our congratulations were premature. The weld did not hold. We regret It, too. For it had been our hope-the hope, we believe of all Oklahomans directly interested, that at last proof was to be afforded that denominational pride is not an insurmountable obstacle to efficient economy in educational

It is not our purpose to even attempt to fix the blame for the utter failure of a really inspiring idea. That must be left to the denominations directly involved. We merely seize the opportunity to observe that human nature is pretty much the same in church affairs as elsewhere, and that heaven, after all, can only really and truly be realized after human nature has become thoroughly transformed.

KINGS RARELY COME BACK.

The lure of kingly pomp and circumstance must be great. One of the tragic threads of history is the never-ending struggle of those who have lost a throne to regain that throne for themselves and their posterity. That which the unhappy Charles is attempting in Greece is but history repeating itself. There yet lives a bretender to the throne of Bonaparte, as well one who maintains his rightful title to the throne of the Bourbons.

But how rarely they come back; He who reads history and ponders what he reads, appreciates how great the fall when royalty tumbles, and, in modern history, how final that fall usually The "divinity of kings" is a doctrine that no longer commands credulity.

TWINT LOVE OND DUTY.

The attitude of our exteemed neighbor, The Tribune, anent the governor has been admiral in the main, but in its issue of Friday, the 8th, the beans were spilled in unseemly fashion all over the place.

Reading the remarkable anamadversions appoaring on its editorial page that day, one is forced to conclude that our neighbor is torn wixt love and duty, feels, as it were, the necesity of proving its legalty to that which it is sshamed of. No other conclusion is permis-

It finds Governor Robertson and his "Yipper" associates uterly impossible, the governor running from the opportunity to establish his napocence; that he is not only a disgrace to the tate, but also a millstone hanging to the neck of the democratic party; finds that said party can never command the confidence and support of the people of Oklahoma until it has rid neelf of the millstone and "Yipper" hangers-on; that if Tom Jefferson should take a notion to

return to the scene of his earthly activities he yould read the whole gang out of the party. Then, apparently being called to account by

some and sundry for its lack of democratic loyalty, our neighbor takes a hitch in the belt and deposes further. It finds that the republican members of the lower house who checkmated the governor in his netarious undertakings, turned the spotlight of publicity on the dark spots of Robertsonianism, thus bringing to light the things our neighbor had just condemned. were likewise criminals of the despest hus, be cause they had betrayed the people by not doing the things the governor wanted done; had spen their time in showing up the rottenness of the infinitelytative wathwritten toward of "seeting in" with the corrupters and further bleeding the

INVESTMENT. We say our neighbor's editorial page Friday was the most remarkable that ever came from a press in the southwest. Because from it car be proven anything that may be asserted in a political way, while thereon can be read defense and justification for all parties and all politilans in the importal state of Oxlahoma. We commend it to the attention of those who delight in curios. Because it thoroughly disproves the theory that it is impossible for a man to ride horses going in opposite directions. Our neighbor rider a flock of horses, no two of which are going in the same direction.

The most marvelous, thelling, gigantle and awe laspiring exhibition of political equestrianinni ever staged in the anuthwest?

PUZZLE: FIND THE TWO-SPOTS.

Under the heading "Aces and Two-Spots." Editor Jerry Rand of the Okumigee Times, who secured his papers to practice from the same source that Vice President Coolidge received his, has this to say:

In an interview with a reporter for the Daily Ardmoreite, James Harris of Wagener, republican national committeeman for Oklahoma, lists 15 Oklahoma republicans as "possibilities" in the gubernatorial race next year. Here is his list: Roy M. John-son of Ardinore, Aiva Niles of Tules, Eugene Lorton of Tules, James B. Cullison of Enid, James J. McGraw of Ponca City, Charles F. Runyon of Muskogee, and Victor

Somebody must have mentioned Clara-Hamon at this point, for the list lan't com-pleted. In order that the public may not be disappointed at the failure of The Ard-moreite to list the other seven, here they are, of our own choosing pass on 'en all and send in your votes—one at a time, how-ever, and don't jam: Mike Lynch of Stroud, W. T. Clark of Manchester, Manuel Herrick of Squirrel Top, Bird McGuire of Tulsa, and three others, running at large, present whereabouts not known.

Jim held two real aces among the eight cards which he threw down. All he wanted was to give somebody a chance to do a little The Times will leave it to its readers to decide which, if any, of its seven ards are aces and which are two-spots. We reproduce the mutterings of our esteemed

contemporary, not so much for the purpose of applauding or approving as to furnish an opportunity for our readers to solve the puzzle.

HOW IT HAPPENED.

Eventually the truth of the Eighth legislative session will be known. Editor Campbell, of the Waukomis Hornet, who was a member of the house and who has served in that body for years, on his return home wrote the following:

"From the first day the democrats started In to pad the appropriations and make them larger than any previous year, and they were quite successful, through the assistance of the members who had institutions to look after and whose ambition seemed to get every dollar possible, whether they needed it or not. Every state department was padded to the limit. The republicans sought to cut these down and passed measures to that end, but the democrats refused to give in, and that is what caused the sudden breaking up of the house."

To call "Buck" Campbell a liar is not only a dangerous thing, but a sacrilege amongst those who know him. Therefore, the above can be accepted as a baid recitement of uncontrovert-

Postmaster General Hays declares it to be his intention to humanize the postoffice department. And now a large number of deserving republicans are wondering if that means that present incumbents are to be left in peace rather than outrage their human feelings by slipping the skids under them.

agree on a verdict of guilt in the case of Willlama is a lot more damaging to Georgia than the crime itself. A thing like that almost makes a good friend of the south suspicious.

The inability of that Georgia jury to quickly

Barney Baruche would cancel allied debts to the United States. But does Barney do business that way himself?

We have no objection to Colonel Harvey going to St. James, Having picked two presidents in a row he is entitled to some recognition. But we always keenly regret seeing an able pen-pusher deliberately shelving himself. Colonel Harvey announces that he will "strangle his baby" before taking up his official duties. Meaning that his weekly will suspend publication. To have accomplished that much was, from the administration's standpoint, achieve-

World Political Conditions. Editor World: Was there ever a successful physician who gave the same prescription to all his patients, regardless of their ailments? That Editor World: is the trouble with the "made-in England league of nations. The world is sick, all right but each nation has a different disease. Consequently we should beware of any alleged "cure ill," whether it be labeled militarism, navallan or league of nations, for one is at a loss to decid which is the more dangerous. If proper diagnosfs be made of each case, the remedy is easy May I presume to offer the fellowing: Italy and Greece are suffering from growing

Germany had Polish and Danish tonsilitis and Alsatian adenoids, and having had them removed by a very major operation, is reported to be convalesting nicely. In fact, many say the in in better condition than any country of

Austria had a succession of irritating face umors, variously labeled Hungarian, Herznogo-Jugo-Slovaklan, Czech-Slovaklan, et cetera. All removed by serious major operations and wounds not yet healed. Patient ill has high local fevers.
France has a very bad case of anemia. Trans-

fusion of Lorraine, Saal valleys and some African colonies resorted to, but blood pressure still low. Demands that Uncle Sam sleep with one eve open and room full of cannon.

Japan has a severe case of billiousness be-Japan has a severe case of billiousness because of over-consumption of Manchuria and Korea. The unfortunate part of her condition is that she mistakes her ailment for creative effort to bring into her family the new Shantung.

Russia, as far as we are permitted to judge by English censored reports, is suffering from an exaggerated case of St. Vitas' dages, aggra-

English censored reports, is suffering from an exaggerated case of St. Vitas dance, aggravated by a dangerous attack of Spanish flu, a result of atroclous oppression. Various remeresult of atroclous oppression. Various remedies have been tried and suggested with varying degrees of success. Mostly less. Mental suggested of a position, that I had no loss of a position, that I had no loss of a position, that I had no loss of a position, that I had no heart to oppose him in any way. Before he went to bed, I saw nim the general concensus of Yankeedom that the rabent freathers? Is best suited to this case. Very little heed, however, is given to plain, then tear it up. I felt hurt that he practical, old-fashioned Yankee common sense the loss of a position, that I had no serve the propose him in any way. England's case is really the most serious of said

that she insists she is perfectly well. For each hundred years she has been supposed to have a cast-iron stomach, capable of digesting as much of the earth's surface as she could lay her land-grabbing fingets upon. Right now she her land-grabbing fingets upon. Right now she her land-grabbing fingets upon. Right now she her serious territorial indiscation, brought on by eating. Paissine, Mesopotamia, Arabia, is of German colonies in 1.509,000 square miles of German colonies in formed on her stomach in South Africa, a cancer in Egypt; she has walking typhus fever in cer in Egypt; she has walking typhus fever in findia. But her worst trouble and the disease findia. But her very vitals is Irish appendent. dicitis. The excruciating pains that are attend-ing this phase of her liness make the baffled rear of the English iten (Liebug) heard around It is shaking her entire govern mental structure to its very foundation. So far she has been able to control her other troubles by tocal application, such as little bombing expeditions over cities in India and Egypt. God only knows what in South Africa. But she has had to resert to the wholesale use of the opiate that we take a nice long walk. He was so restless, so unhad to resert to the wholesale use of the opiate. of a large standing army, with martial law in her appendix, Ireland. Also the wholesale arrests and imprisonment, starving and cruelty to political prisoners to alleviate the pain. Be cause of her refusal to have her appendix re moved the internal poison, generated by violent attempts to suppress the liver, is spreading to the uttermost corners of the earth. The people France and Italy, Spain and Holland, China

and New Zealand, Canada and Australia, are demanding that the operation be performed. In addition, the jumping and already overwrought nerves of Russia are finding much easier growth us a result of this agitation

ncle Sam is troubled with some very irritating boils and carboneles. Most of these have been caused by the English parliament. Cecil khodes, Carnerie's hundreds of millions of dollars slush fund. These boils and carbundes may be labeled religious agitation, racial agitation, agitation between labor and capital, culminating in strikes and race riots. Added to this the knowledge of the suppression of Irish Irish appendicitis by English atrocities. Thus Uncle Sam is about in the same humor as a man with

the jumping toothache.

And now the English doctors prescribe a "made in England" patent "cureal" league of nations for all of these various national diseases. This is the prescription:

Uncle Sam is to guarantee national life and fire insurance, territorial insurance, income insurance, accident and health insurance, lighting and tempest insurance, mob and riot insurance to all of the nations of the earth without receiving a dollar's worth of premium with which to carry the risk. In spite of his own boils and carbuncies he must ile down, not only in the same hospital but in the same ward, and even in the same bed, with all the other patients, ome of them sick unto death, others with in fections and even wildly contagious and peet! ential fevers. Uncle Sam's money the onl medicine. Not a nation of the earth has the only

A MODERN STORY OF HOME AND BUSINESS

CHAPTER XLIII.

A Summons to Marion.

For just a moment Robert hesiated. Then he said:

"The message is from Marion's rother. Marion is sick and wants of see me."

"Come on, let's walk up through the park. We can rest as often as welke, and still resch Mary's on the like, and still resch Mary's on the like, and still resch Mary's on the like, and still resch Mary's on the like and still resch Mary's on the resch Mary's on the resch Mary's on the resch Mary's on the rest and the like and still resch Mary's on the resch Mar tated. Then he said:

brother. Marion is sick and wants to see me."
"One would think you were her time."
"Come on, let's walk up through the park. We can rest as often as we like, and still reach Mary's on time." "One would think you were farher confessor." I spoke as lightly as I could, invariably I tried to conceal my jealousy of Marion.

"Poor girl. She misses her father together as we had not done in days. andly." Robert's answer was so sym-pathetic it gave me another twinge, but I asked quietly:

"When does she want to see you?"
"Some time tomorrow."
"Oh, Robert! We can't disappoint Mary. Her heart would break if you did not accept her invitation to dinner."
"So would mine! I will go with "So would mine! I will go with you, then after dinner will run over the first then come to describe the first then come to describe the first then come to describe the first then come the first then come to describe the first then come the first then come to describe the first the first the first then come to describe the first the fi

would do. I would not object. I may have been wrong in my ready acqui-escence to all of Robert's ideas, but

y little heed, however, is given to plain, official, old-fashioned Yankee common sense had not shown it to me instead of telling me what was in it; but I faction expression and ma was impaid nothing, and pretended to be had not shown it for me instead of telling me what was in it; but I faction expression and ma was impossed to show the faction expression and may wishing I did-to way my tallored suit and an old to way my tallored suit and an old only lessons, and may wast so that I might help Mary with

ing him fidget. We had read the morning paper, taken the addresses of two or three firms whose advertisements seemed particularly alluring—one or two that were "no good" Habert said, but which I told him it wouldn't hurt him to go and see, if the others weren't suitable. and see. More and Better Milk

Do You Use Bermuda Milk?

It is produced thy purebred Holstein cows on the old Mc-Lane dairy and under the most sanitary conditions that have gained for the milk the endorsement of Tulsa physicians and is recommended by them as the "Baby Milk."

This milk has been thoroughly tested and the high standard for pure, clean milk that has been maintained for years has been raised, and our continued efforts are for better sanitary dairy conditions.

You are most cordially invited to visit this dairy and see for yourself just how this milk is produced and handled. It is your duty to your family to know about the source of your family's milk supply. It is especially important now that warm weather is approaching with its favorable conditions for children's and infants's diseases.

This milk is sold at only the following stores in Tulsa: The Enterprise Grocery at 620 South Main St.; Ed Kelly's Riverside Grocery. Twelfth St., and at all of the 11 Gens Cash Groceries in various parts of the city.

Just How to Find the Dairy

Drive out to the paved high-way on East Tenth St. and folway on East Tenth St, and fol-low it south and east toward Broken Arrow. We are lo-cated at the present end of the paving. Drive in and let us show you around the dairy. We want you to see the fine Holsteins on Bermuda grass pasture. pasture.

M. A. WATKINS, Supt.
